PROFESSIONAL SUMMARY

Aspiring QA Automation Engineer with a foundation in software engineering and over three years of professional experience. Skilled in Agile environments, requirements analysis, and stakeholder collaboration. Experienced in manual testing, process validation, and defect identification, with hands-on exposure to operational workflows and documentation. Eager to apply automation testing skills using JavaScript frameworks and contribute to delivering high-quality software products.

CORE SKILLS

- Manual & Automated Testing (basic exposure)
- Test Case Design & Execution
- Defect Tracking & Reporting
- Requirement Analysis & Validation
- Agile/Scrum Collaboration
- Process Improvement & Workflow Analysis
- Documentation & Quality Records

Tools & Technologies: Jira, X-ray, MS Excel, Confluence, Postman, Draw.io / Visio, Figma
Technical Exposure: JavaScript (basic), C#, Java, Python, Node.js, Android Studio, Unity

---

PROFESSIONAL EXPERIENCE

Software Engineer (Requirements & QA Support)

Prime Technologies Consulting | Punjab, India | Dec 2020 – Jul 2024

- Collaborated with stakeholders, developers, and QA teams in Agile environments to define requirements, validate solutions through testing and UAT, review specifications for gaps or defects, document and track issues, and support process improvements and standardized testing workflows.

Business Operations & QA Support (Side Project)

Restaurant Business | Kharar, Punjab |Sep 2021 – Jun 2024

- Monitored daily operations to ensure consistency, process compliance, and quality; inspected materials, inventory, and workflows to identify issues; maintained documentation and performance reports; and coordinated with vendors to resolve process-related challenges.

Operations Coordinator (Part-Time)

Naughty Chicken Restaurant | Waterloo, ON | Sep 2024 – Jul 2025

- Supported daily operations by coordinating workflows, tracking inventory, prioritizing tasks, and ensuring consistency, while identifying inefficiencies and improving processes during peak hours.

EDUCATION

Diploma – Mobile and Web Development
Conestoga College | Waterloo, ON | Final Semester | Sep 2024 – Present

Bachelor of Engineering – Computer Science & Engineering (Cloud Computing)
Chandigarh University | Mohali, Punjab, India | May 2016 – Jul 2020

ACADEMIC & TECHNICAL PROJECTS

Task Management Application | Flutter

- Developed a workflow application focused on prioritizing tasks.
- Reviewed requirements and validated application behavior against defined user stories.

QA Automation Practice Project | JavaScript / Webdriver.io (Self-Learning)

- Created automated test scripts to validate web application forms and workflows.
- Executed regression tests and tracked defects using Jira and Postman.

CERTIFICATIONS

- Fundamentals of Digital Marketing – Google
- Python for Data Science & AI – Coursera
- **QA Automation (Self-Learning): Webdriver.io & JavaScript Practice Projects**

- Driver's License: Valid Ontario G license

- Managing assignments and deadlines can become confusing for students when they are enrolled in multiple courses at the same time. The Student Task & Deadline Manager is a web application designed to help students organize their courses, track tasks, and stay aware of upcoming deadlines in one place.
